## Section I - INTRODUCTION

### PURPOSE OF THE INSPECTION:

To determine compliance with the Lead RRP regulations. The EPA Edison office had received multiple complaints about this site and the alleged lack of compliance with the Lead RRP Regulations. According to PropertyShark, the median year that structures in the area were built is 1956, the complainant states that the house was built in the 1850's and qualifies as Target Housing.

At 9:55 AM EPA Inspectors Fitzpatrick and Ronca arrived at 20-22 East Clinton Avenue, Irvington, NY. The inspectors meet with Mr. Michael Quinn who resides at 20 East Clinton Avenue with his mother Lois who owns the residence. Mr. Quinn is the person who called EPA to file a complaint about the renovation being performed at 22 East Clinton Ave. The house located at 22 East Clinton Ave. is located directly behind 20 East Clinton Ave. (Quinn residence) on a flagpole lot. Mr. Quinn informed the inspectors that the company conducting the renovation at 22 East Clinton Ave., Hudson Contractors, also owns the house and is going to renovate the house and then flip it or sell it.

Mr. Quinn stated that, during the renovation of the exterior of the house at 22 East Clinton Ave., paint chips and roofing materials were deposited on his property. Mr. Quinn had the paint chips tested for lead and several of the chips tested positive for lead. Mr. Quinn gave me a copy of the lead test results. Inspectors Fitzpatrick and Ronca inspected the back of the Quinn property near the east side of 22 East Clinton Ave. The 22 East Clinton Ave. residence was built in the 1850's, the east side of the house was built right on the property line without a setback. The inspectors observed what appeared to be white paint chips and roofing products on the Quinn property (photos taken). Mr. Quinn gave the inspectors photographs of the renovation of 22 East Clinton Ave., a thumb drive containing additional photos of the renovation, paint chip and roofing product sample results as well as other associated paperwork pertaining to the renovation project.

Inspector Fitzpatrick then called Ms. Deena Goldsmith, who is the mother of Emily Burley and the mother-in-law of Benjamin Burley, the owners of Hudson Contractors Inc. and the residence located at 22 East Clinton Ave. Ms. Goldsmith stated that she was the construction manager for this project because her daughter and son-in-law are both working other full-time jobs. Ms. Goldsmith informed the inspectors that her daughter and son-in-law bought the house at 22 East Clinton Ave. to renovate and eventually move into. They also own Hudson Contractors Inc., the company that is renovating the property. Ms. Goldsmith informed the inspectors that she would come to the jobsite.

Ms. Goldsmith arrived at 20-22 East Clinton Ave. and the inspectors asked Ms. Goldsmith to give them an overview of the renovation. Ms. Goldsmith stated that the house is being completely renovated by Hudson Contractors LLC which is owned by her daughter (Emily Burley) and her son-in-law (Benjamin Burley). New siding, roof, windows, plumbing, electrical, bathrooms, kitchen and new garage addition are being installed. The house is also owned by the Burleys under a separate LLC. The inspectors asked Ms. Goldsmith if she would allow the inspectors to inspect the renovation operation at 22 East Clinton Ave. Ms. Goldsmith called both her daughter, Emily Burley and their lawyer to ask if they would grant us access to the site to conduct a compliance inspection. After several minutes, verbal permission was granted by Emily Burley and the attorney to enter the site to conduct an inspection.

Inspector Fitzpatrick presented and explained the Notice of Inspection (NOI) to Ms. Goldsmith. Ms. Goldsmith signed the NOI (Attachment 1) and was given a copy. Inspector Fitzpatrick next presented and explained the TSCA Inspection Confidentiality Notice (TICN) to Ms. Goldsmith. Ms. Goldsmith also signed the TICN (Attachment 2) and was given a copy. The EPA inspectors asked Ms. Goldsmith and Ms. Burley if Hudson Contractors had an EPA RRP Firm Certification and Ms. Goldsmith stated that they had a Certified Renovator on the job and his certificate was available. The inspectors informed Ms. Burley and Ms. Goldsmith that they had checked EPA's National Data Base FLPP and Hudson Contractors does not have an EPA Firm Certification.

#### **PROPERTY DESCRIPTION**

The property at 22 East Clinton Avenue, Irvington, New York is a single-family residence with four bedrooms and two and a half bathrooms. The residence was built in approximately 1850 and qualifies as target housing. From the outside, there is a new roof, siding, windows (26) and a garage addition. The inside of the residence is also completely renovated with new sheetrock, kitchen, bathrooms, floors, plumbing and electrical. A two-car garage has been added. The property is owned by 20 East Clinton, LLC. A Village of Irvington Building Permit No. BP-2018-0035 was issued on 3/21/18 for these renovations.

#### **SITE WALK-THROUGH**

Inspectors Fitzpatrick and Ronca enter 22 East Clinton Ave. accompanied by Ms. Deena Goldsmith, Project manager for Hudson Contractors. Ms. Goldsmith explained that the entire residence has undergone renovation. The painted wood siding on the exterior of the residence was removed by hand methods. The sheetrock and plaster was first encapsulated and then remove by hammers. A new roof, new plumbing and windows (26) have been installed. The entire interior, of this residence is new. New kitchen, bathrooms, sheetrock, flooring, plumbing and electrical.

## Section II – OBSERVATIONS

While conducting our walk through of the residence at 22 East Clinton Avenue, Irvington, New York, the inspectors observed the following:

- 1) Lead Warning signs were not posted or visible on any floor or in any part of the residence, interior or exterior.
- 2) The Contractor did not have an EPA RRP Firm Certification.
- 3) It appears that the entire exterior and interior of this Target Housing was renovated.
- 4) It appears that a Certified RRP Lead Renovator was not assigned to this project until June 1, 2018. Ms. Goldsmith stated that the Certified Renovator had previously had a Renovator Certification and that it expired. While looking at the Renovator Certificate (Attachment 3) that was presented for Mariusz Szczebara, Certificate Number: R-I-74543-18-68816, course examination date June 1, 2018, it states “Lead Renovator Initial-English”.
- 5) Twenty-six new windows were installed.

## Section III – CLOSING CONFERENCE

Inspector Fitzpatrick presented and explained the Receipt for Samples and Documents Form (RSD) notating on the form that 11 photographs taken. Ms. Goldsmith signed the RSD and was provided a copy of the form (Attachment 4). The inspectors informed Ms. Goldsmith of their concerns which are noted in Section IV below. The inspectors asked Ms. Goldsmith if he had any questions, and Ms. Goldsmith asked what is the next step and Inspector Fitzpatrick stated that he would write a report and forward it upper management for review and next steps if any. Inspector Ronca gave Ms. Goldsmith a Lead Compliance package. Inspector Fitzpatrick asked Ms. Goldsmith if Hudson Contracting was going to clean-up the paint chips and roof paper on the Quinn’s property and Ms. Goldsmith explained that Hudson wanted to clean-up the Quinn property but the Quinn’s wouldn’t allow Hudson’s consultants access to the site to determine the extent of contamination and design a remediation plan. Inspector Fitzpatrick informed Ms. Goldsmith that he would talk to Michael Quinn to see if he could get Hudson Contractors consultants access to the Quinn property. With no further questions, Inspectors Fitzpatrick and Ronca thanked Ms. Goldsmith for her cooperation and time. The inspectors departed the location at 12:30 p.m.

## Section IV – AREAS OF CONCERN

The following are the areas of concern expressed to Ms. Goldsmith during the inspection:

- Hudson Contractors does not have an EPA RRP Firm Certification. The inspectors strongly suggested to Ms. Goldsmith that Hudson obtain an EPA Firm certification.

- Warning signs were not posted.
- A Certified Renovator was not assigned to the project until June 1, 2018. When Ms. Goldsmith and the EPA inspectors tried to call Mr. Szczedara, the Certified Renovator for this jobsite by phone to get some information, he was not available.
- It appears that a full exterior and interior gut renovation was conducted at this Target Housing without a Certified Renovator being present from the beginning of the renovation and that a Certified Renovator did not train the other construction workers in the proper procedures to handle painted surfaces to comply with the RRP Lead Rule.
- That lead contaminated paint chips and asbestos roofing products were present on the Quinn property.

#### **Section V – FOLLOW-UP**

The Quinn's allowed Hudson Contractor's environmental contractors access to their property to assess the extent of paint chip and roof paper distribution. The Quinn property clean-up dispute is presently being litigated in Westchester County Court.

#### **Section VI – LIST OF ATTACHMENTS**

1. Notice of Inspection.
2. TSCA Inspection Confidentiality Notice.
3. Receipt for Samples and Documents Form.
4. 11 photographs.
5. Renovator Certificate for Mariusz Szczebara

**To Assert a TSCA Confidential Business Information Claim**

It is possible that EPA will receive public requests for release of the information obtained during the inspection of the facility cited above. Such requests will be handled by EPA in accordance with provisions of the Freedom of Information Act (FOIA), 5 U.S.C. § 552; EPA regulations issued thereunder, 40 C.F.R. part 2; and the Toxic Substances Control Act (TSCA) Section 14 (15 U.S.C. § 2613). EPA is required to make inspection data available in response to FOIA requests unless the EPA Administrator determines that the data is entitled to confidential treatment, or may be withheld from release under other exceptions of FOIA. Any or all information collected by EPA during the inspection may be claimed as confidential if it relates to trade secrets, commercial, or financial matters that you consider to be confidential business information (CBI). If you assert a CBI claim, EPA will disclose the information only to the extent, and by means of the procedures set forth in the regulations (cited above) governing EPA's treatment of CBI. Among other things, the regulations require that EPA notify you in advance of publicly disclosing any information claimed as CBI. A CBI claim may be asserted at any time prior to or during the inspection. If a CBI claim is received after the inspection, EPA will make such efforts as are administratively practical to protect the information. However, EPA cannot assure that such efforts will be effective in light of the possibility of prior disclosure. If it is more convenient for you to assert a CBI claim on your own stationary or by marking the individual documents or samples "TSCA confidential business information," it is not necessary for you to use this notice. The inspector will be glad to answer any questions you may have regarding EPA's CBI procedures. While you may claim any collected information or sample as CBI, such claims are not likely to be upheld if they are challenged unless the information meets the following criteria:

1. Your company has taken measures to protect the confidentiality of the information and it intends to continue to take such measures.
2. The information is not, and has not been, reasonably obtainable without your company's consent by other persons (other than governmental bodies), or by use of legitimate means (other than discovery based on showing of special need in a judicial or quasi-judicial proceeding).
3. The information is not publicly available elsewhere.
4. Disclosure of the information would cause substantial harm to your company's competitive position.

At the completion of the inspection, you will be given a receipt for all documents, samples and other materials collected. At that time, you may make claims that some or all of the information is CBI.

If you are not authorized by your company to assert a CBI claim, this notice will be sent by certified mail, along with the receipt for documents, samples, and other materials to the Chief Executive Officer of your company within 2 days of this date. The Chief Executive Officer must return a statement specifying any information which should receive CBI treatment.

The statement from the Chief Executive Officer should be addressed to:

and mailed by registered, return-receipt requested mail within 7 calendar days of receipt of this notice. Claims may be made at any time after the inspection, but the inspection data will not be entered into the TSCA/CBI security system until an official confidentiality claim is made. The data will be handled under EPA's routine security system unless and until a claim is made. If no confidentiality claim accompanies the information when it is received by EPA, the information may be made available to the public without further notice to the business.

To Be Completed By Facility Official Receiving This Notice I acknowledge receipt of this notice: 		If there is no one on the premise who is authorized to make CBI claims for this facility, a copy of this notice and other inspection materials will be sent to the company's Chief Executive Officer. If there is another official who should also receive this information, please designate below.

**To Assert a TSCA Confidential Business Information Claim**

It is possible that EPA will receive public requests for release of the information obtained during the inspection of the facility cited above. Such requests will be handled by EPA in accordance with provisions of the Freedom of Information Act (FOIA), 5 U.S.C. § 552; EPA regulations issued thereunder, 40 C.F.R. part 2; and the Toxic Substances Control Act (TSCA) Section 14 (15 U.S.C. § 2613). EPA is required to make inspection data available in response to FOIA requests unless the EPA Administrator determines that the data is entitled to confidential treatment, or may be withheld from release under other exceptions of FOIA. Any or all information collected by EPA during the inspection may be claimed as confidential if it relates to trade secrets, commercial, or financial matters that you consider to be confidential business information (CBI). If you assert a CBI claim, EPA will disclose the information only to the extent, and by means of the procedures set forth in the regulations (cited above) governing EPA's treatment of CBI. Among other things, the regulations require that EPA notify you in advance of publicly disclosing any information claimed as CBI. A CBI claim may be asserted at any time prior to or during the inspection. If a CBI claim is received after the inspection, EPA will make such efforts as are administratively practical to protect the information. However, EPA cannot assure that such efforts will be effective in light of the possibility of prior disclosure. If it is more convenient for you to assert a CBI claim on your own stationary or by marking the individual documents or samples "TSCA confidential business information," it is not necessary for you to use this notice. The inspector will be glad to answer any questions you may have regarding EPA's CBI procedures. While you may claim any collected information or sample as CBI, such claims are not likely to be upheld if they are challenged unless the information meets the following criteria:

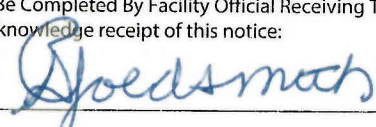

1. Your company has taken measures to protect the confidentiality of the information and it intends to continue to take such measures.
2. The information is not, and has not been, reasonably obtainable without your company's consent by other persons (other than governmental bodies), or by use of legitimate means (other than discovery based on showing of special need in a judicial or quasi-judicial proceeding).
3. The information is not publicly available elsewhere.
4. Disclosure of the information would cause substantial harm to your company's competitive position.

At the completion of the inspection, you will be given a receipt for all documents, samples and other materials collected. At that time, you may make claims that some or all of the information is CBI.

If you are not authorized by your company to assert a CBI claim, this notice will be sent by certified mail, along with the receipt for documents, samples, and other materials to the Chief Executive Officer of your company within 2 days of this date. The Chief Executive Officer must return a statement specifying any information which should receive CBI treatment.

The statement from the Chief Executive Officer should be addressed to:

and mailed by registered, return-receipt requested mail within 7 calendar days of receipt of this notice. Claims may be made at any time after the inspection, but the inspection data will not be entered into the TSCA/CBI security system until an official confidentiality claim is made. The data will be handled under EPA's routine security system unless and until a claim is made. If no confidentiality claim accompanies the information when it is received by EPA, the information may be made available to the public without further notice to the business.

To Be Completed By Facility Official Receiving This Notice I acknowledge receipt of this notice: 		If there is no one on the premise who is authorized to make CBI claims for this facility, a copy of this notice and other inspection materials will be sent to the company's Chief Executive Officer. If there is another official who should also receive this information, please designate below.
